Oak Harvest Long/Short Hedged Equity Fund

Notes to the Financial Statements

August 31, 2024

NOTE 1. ORGANIZATION

The Oak Harvest Long/Short Hedged Equity Fund (the “Fund”) is registered under the Investment Company Act of 1940, as amended (“1940 Act”), as a non-diversified series of Capitol Series Trust (the “Trust”) on October 19, 2023. The Trust is an open-end investment company established under the laws of Ohio by an Agreement and Declaration of Trust dated September 18, 2013, as amended and restated November 18, 2021 (the “Trust Agreement”). The Trust Agreement permits the Board of Trustees of the Trust (the “Board”) to issue an unlimited number of shares of beneficial interest of separate series without par value. The Fund is one of a series of funds currently authorized by the Board. The Fund’s investment adviser is Oak Harvest Investment Services, LLC (the “Adviser”). The investment objective of the Fund is to seek capital appreciation.

The Fund currently offers one class of shares, Institutional Shares. The Fund commenced operations on December 18, 2023. Each share represents an equal proportionate interest in the assets and liabilities belonging to the Fund and is entitled to such dividends and distributions out of income belonging to the Fund as are declared by the Board.

NOTE 2. SIGNIFICANT ACCOUNTING POLICIES

The Fund is an investment company and follows accounting and reporting guidance under Financial Accounting Standards Board Accounting Standards Codification (“ASC”) Topic 946, “Financial Services-Investment Companies”. The following is a summary of significant accounting policies followed by the Fund in the preparation of its financial statements. These policies are in conformity with generally accepted accounting principles in the United States of America (“GAAP”).

Regulatory Update – *Tailored Shareholder Reports for Mutual Funds and Exchange-Traded Funds (“ETFs”)* – The Securities and Exchange Commission adopted rule and form amendments that have resulted in changes to the design and delivery of shareholder reports of mutual funds and ETFs, requiring them to transmit concise and visually engaging streamlined annual and semiannual reports to shareholders that highlight key information by July 24, 2024. Other information, including financial statements, will no longer appear in a streamlined shareholder report but must be available online, delivered free of charge upon request, and filed on a semiannual basis on Form N-CSR.

Estimates – The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets from operations during the reporting period. Actual results could differ from those estimates.

Oak Harvest Long/Short Hedged Equity Fund

Notes to the Financial Statements (continued)

August 31, 2024

Short Sales – The Fund may make short sales as part of its overall portfolio management strategies or to offset a potential decline in value of a security. The Fund may engage in short sales with respect to various types of securities, including exchange-traded funds (ETFs). A short sale involves the sale of a security that is borrowed from a broker or other institution to complete the sale. The Fund may engage in short sales with respect to securities it owns, as well as securities that it does not own. Short sales expose the Fund to the risk that it will be required to acquire, convert or exchange securities to replace the borrowed securities (also known as “covering” the short position) at a time when the securities sold short have appreciated in value, thus resulting in a loss to the Fund.

The amount of loss may exceed the proceeds received in a short sale. The Fund’s investment performance may also suffer if the Fund is required to close out a short position earlier than it had intended. The Fund must segregate assets determined to be liquid in accordance with procedures established by the Board, or otherwise cover its position in a permissible manner. The Fund will be required to pledge liquid assets to the broker in order to secure its performance on short sales. As a result, the assets pledged may not be available to meet the Fund’s needs for immediate cash or other liquidity. In addition, the Fund may be subject to expenses related to short sales that are not typically associated with investing in securities directly, such as costs of borrowing and margin account maintenance costs associated with the Fund’s open short positions. These types of short sales expenses are sometimes referred to as the “negative cost of carry,” and will reduce the Fund’s potential return on a short sale. The amount of restricted cash or cash equivalents held at the broker as collateral for securities sold short was \$5,674,740 as of August 31, 2024.

Cash and Cash Equivalents — Idle cash may be swept into various interest bearing overnight demand deposits and is classified as a cash equivalent on the Statement of Assets and Liabilities. The Fund maintains cash in the bank deposit accounts which, at times, may exceed the Federal Deposit Insurance Corporation (FDIC) limit of \$250,000. Amounts swept overnight are available on the next business day.

Federal Income Taxes – The Fund makes no provision for federal income or excise tax. The Fund has qualified and intends to qualify each year as a regulated investment company (“RIC”) under subchapter M of the Internal Revenue Code of 1986, as amended, by complying with the requirements applicable to RICs and by distributing substantially all of its taxable income. The Fund also intends to distribute sufficient net investment income and net realized capital gains, if any, so that it will not be subject to excise tax on undistributed income and gains. If the required amount of net investment income or gains is not distributed, the Fund could incur a tax expense.

The Fund recognizes tax benefits or expenses of uncertain tax positions only when the position is “more likely than not” to be sustained assuming examination by tax authorities.

Oak Harvest Long/Short Hedged Equity Fund

Notes to the Financial Statements (continued)

August 31, 2024

Management of the Fund has reviewed tax positions taken in tax years that remain subject to examination by all major tax jurisdictions, including federal (i.e., the previous three tax year ends and the interim tax period since then, as applicable) and has concluded that no provision for unrecognized tax benefits or expenses is required in these financial statements and does not expect this to change over the next twelve months. The Fund recognizes interest and penalties, if any, related to unrecognized tax benefits as income tax expense in the Statement of Operations. During the period, the Fund did not incur any interest or penalties.

Expenses – Expenses incurred by the Trust that do not relate to a specific fund of the Trust are allocated to the individual funds of the Trust based on each fund’s relative net assets or another appropriate basis (as determined by the Board).

Security Transactions and Related Income – Throughout the reporting period, security transactions are accounted for no later than one business day following the trade date. For financial reporting purposes, security transactions are accounted for on trade date on the last business day of the reporting period. The specific identification method is used for determining gains or losses for financial statements and income tax purposes. Dividend income is recorded on the ex-dividend date and interest income is recorded on an accrual basis.

Dividends and Distributions – The Fund intends to distribute substantially all of its net investment income, if any, at least quarterly. The Fund intends to distribute its net realized capital gains, if any, annually. Distributions to shareholders, which are determined in accordance with income tax regulations, are recorded on the ex-dividend date. The treatment for financial reporting purposes of distributions made to shareholders during the year from net investment income or net realized capital gains may differ from their ultimate treatment for federal income tax purposes. These differences are caused primarily by differences in the timing of the recognition of certain components of income, expense or realized capital gain for federal income tax purposes. Where such differences are permanent in nature, they are reclassified in the components of the net assets based on their ultimate characterization for federal income tax purposes. Any such reclassifications will have no effect on net assets, results of operations or net asset value (“NAV”) per share of the Fund.

For the fiscal period ended August 31, 2024, the Fund made the following reclassifications to increase (decrease) the components of net assets due to net operating losses:

	Accumulated Earnings
Paid-In Capital	(Deficit)
\$(174)	\$174

Oak Harvest Long/Short Hedged Equity Fund

Notes to the Financial Statements (continued)

August 31, 2024

Derivatives – The Fund may invest in various types of derivative instruments (such as options, futures contracts, and forward contracts) to gain or hedge exposure to certain types of securities as an alternative to investing directly in or selling such securities. The Fund may use derivatives for hedging purposes, including to attempt to protect against possible changes in the market value of securities held or to be purchased for the Fund's portfolio resulting from securities markets, currency exchange rate or interest rate fluctuations (i.e., to hedge); protect the Fund's unrealized gains reflected in the value of its portfolio securities; facilitate the sale of such securities for investment purposes; and as a substitute for buying or selling securities, securities indices or currencies. The Fund may also use derivatives for nonhedging (speculative) purposes including to enhance a Fund's returns. The Fund may use any or all of these investment techniques and different types of derivative securities may be purchased at any time and in any combination. There is no particular strategy that dictates the use of one technique rather than another, as use of derivatives is a function of numerous variables, including market conditions.

Options and Futures Transactions — The Fund may purchase and sell exchange traded and OTC put and call options on securities, on indexes of securities and other types of instruments. The Fund may also purchase and sell futures contracts on securities and indexes of securities and other instruments such as interest rate futures and global interest rate futures. Each of these instruments is a derivative instrument as its value derives from the underlying asset or index.

The following tables identify the location and fair value of derivative instruments on the Statements of Assets and Liabilities as of August 31, 2024, and the effect of derivative instruments on the Statements of Operations for the fiscal period ended August 31, 2024.

NOTE 3. NON-DIVERSIFICATION RISK

The Fund is non-diversified, which means it may invest a greater percentage of its assets in a limited number of issuers as compared to other mutual funds that are more broadly diversified. As a result, the Fund's share price may be more volatile than the share price of some other mutual funds, and the poor performance of an individual holding in the Fund's portfolio may have a significant negative impact on the Fund's performance.

NOTE 4. SECURITIES VALUATION AND FAIR VALUE MEASUREMENTS

The Fund values its portfolio securities at fair value as of the close of regular trading on the New York Stock Exchange (“NYSE”) (normally 4:00 p.m. Eastern Time) on each business day the NYSE is open for business. Fair value is defined as the price that the Fund would receive upon selling an investment in a timely transaction to an independent buyer in the principal or most advantageous market of the investment. GAAP establishes a three-tier hierarchy to maximize the use of observable market data and minimize the use of unobservable inputs and to establish classification of fair value measurements for disclosure purposes.

Inputs refer broadly to the assumptions that market participants would use in pricing the asset or liability, including assumptions about risk (the risk inherent in a particular valuation technique used to measure fair value including a pricing model and/or the risk inherent in the inputs to the valuation technique). Inputs may be observable or unobservable. Observable inputs are inputs that reflect the assumptions market participants would use in pricing the asset or liability developed based on market data obtained and available from sources independent of the reporting entity. Unobservable inputs are inputs that reflect the reporting entity’s own assumptions about the assumptions market participants would use in pricing the asset or liability developed based on the best information available in the circumstances.

Various inputs are used in determining the value of the Fund’s investments. These inputs are summarized in the three broad levels listed below.

- Level 1 – unadjusted quoted prices in active markets for identical investments and/or registered investment companies where the value per share is determined and published and is the basis for current transactions for identical assets or liabilities at the valuation date
- Level 2 – other significant observable inputs (including, but not limited to, quoted prices for an identical security in an inactive market, quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.)
- Level 3 – significant unobservable inputs (including the Fund’s own assumptions in determining fair value of investments based on the best information available)

The inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the level in the fair value hierarchy which is reported is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

In computing the NAV of the Fund, fair value is based on market valuations with respect to portfolio securities for which market quotations are readily available. Pursuant to Board approved policies, the Fund relies on independent third-party pricing services to provide the current market value of securities. Those pricing services value equity securities, including exchange-traded funds, exchange-traded notes, closed-end funds and preferred stocks, traded on a securities exchange at the last reported sales price on the principal exchange. Equity securities quoted by Nasdaq are valued at the Nasdaq Official Closing Price. If there is no reported sale on the principal exchange, equity securities are valued at the mean between the most recent quoted bid and asked price. When using market quotations or close prices provided by the pricing service and when the market is considered active, the security will be classified as a Level 1 security. Investments in open-end mutual funds, including money market mutual funds, are generally priced at the ending NAV provided by the pricing service of the funds and are generally categorized as Level 1 securities.

In the event that market quotations are not readily available or are considered unreliable due to market or other events, securities are valued in good faith by the Adviser as “valuation designee” under the oversight of the Board. The Adviser has adopted written policies and procedures for valuing securities and other assets in circumstances where market quotes are not readily available. In the event that market quotes are not readily available, and the security or asset cannot be valued pursuant to one of the valuation methods, the value of the security or asset will be determined in good faith by the Adviser pursuant to its policies and procedures. On a quarterly basis, the Adviser’s fair valuation determinations will be reviewed by the Board. Under these policies, the securities will be classified as Level 2 or 3 within the fair value hierarchy, depending on the inputs used.

In accordance with the Trust’s Portfolio Valuation Procedures, the Adviser, as Valuation Designee, is required to consider all appropriate factors relevant to the value of securities for which it has determined other pricing sources are not available or reliable as described above. No single standard exists for determining fair value, because fair value depends upon the circumstances of each individual case. As a general principle, the current fair value of an issue of securities being valued pursuant to the Trust’s Fair Value Guidelines would be the amount which the Fund might reasonably expect to receive for them upon their current sale. Methods which are in accordance with this principle may, for example, be based on (i) a multiple of earnings; (ii) a discount from market prices of a similar freely traded security (including a derivative security or a basket of securities traded on other markets, exchanges or among dealers); or (iii) yield to maturity with respect to debt issues, or a combination of these and other methods. Fair value pricing is permitted if, in accordance with the Trust’s Portfolio Valuation Procedures, the validity of market quotations appears to be questionable based on factors such as evidence of a thin market in the security based on a small number of quotations, a significant event occurs after the

The Fund did not hold any investments during or at the end of the reporting period for which significant unobservable inputs (Level 3) were used in determining fair value; therefore, no reconciliation of Level 3 securities is included for this reporting period.

NOTE 5. FEES AND OTHER TRANSACTIONS WITH AFFILIATES AND OTHER SERVICE PROVIDERS

Under the terms of the investment advisory agreement (the "Agreement"), the Adviser manages the Fund's investments subject to approval of the Board. As compensation for its management services, the Fund is obligated to pay the Adviser a fee computed and accrued daily and paid monthly at an annual rate of 1.95% of the Fund's average daily net assets. For the fiscal period ended August 31, 2024, the Adviser earned fees of \$499,837 from the Fund. At August 31, 2024, the Fund owed the Adviser \$65,659.

The Adviser has contractually agreed to waive its management fee and/or reimburse expenses so that total annual operating expenses (excluding (i) interest; (ii) taxes; (iii) brokerage fees and commissions; (iv) other extraordinary expenses not incurred in the ordinary course of the Fund's business; (v) dividend expenses on short sales; and (vi) indirect expenses such as acquired fund fees and expenses) and expenses do not exceed 1.95% of the Fund's average daily net assets through February 28, 2025 ("Expense Limitation"). During any fiscal year that the Agreement between the Adviser and the Trust

is in effect, the Adviser may recoup the sum of all fees previously waived or expenses reimbursed, less any reimbursement previously paid, provided that the Adviser is only permitted to recoup fees or expenses within 36 months from the date the fee waiver or expense reimbursement took effect and provided further that such recoupment can be achieved within the Expense Limitation currently in effect and the Expense Limitation in place when the waiver/reimbursement occurred. This expense cap agreement may be terminated by the Board at any time. As of August 31, 2024, the Adviser may seek repayment of investment advisory fee waivers and expense reimbursements in the amount as follows:

<u>Recoverable Through</u>	
August 31, 2027	\$ 200,530

The Trust retains Ultimus Fund Solutions, LLC (the “Administrator”) to provide the Fund with administration, fund accounting, and transfer agent services, including all regulatory reporting. Northern Lights Compliance Services, LLC (“NLCS”), an affiliate of the Administrator, provides a Chief Compliance Officer to the Trust, as well as related compliance services, pursuant to a consulting agreement between NLCS and the Trust.

The Board supervises the business activities of the Trust. Each Trustee serves as a Trustee for the lifetime of the Trust or until the earlier of his or her required retirement as a Trustee at age 78 (which may be extended for up to two years in an emeritus capacity at the pleasure and request of the Board), or until he/she dies, resigns, or is removed, whichever is sooner. “Independent Trustees”, meaning those Trustees who are not “interested persons” of the Trust, as defined in the 1940 Act, as amended, have each received an annual retainer of \$2,000 per Fund and \$500 per Fund for each quarterly Board meeting. The Trust also reimburses Trustees for out-of-pocket expense incurred in conjunction with attendance at Board meetings.

The officers of the Trust are employees of the Administrator. Ultimus Fund Distributors, LLC (the “Distributor”) acts as the principal distributor of the Fund’s shares. The Distributor is a wholly-owned subsidiary of the Administrator.

NOTE 6. PURCHASES AND SALES OF SECURITIES

During the fiscal year ended August 31, 2024, the Fund purchased \$78,764,186 and sold \$26,679,086 of securities, excluding securities sold short and short-term investments.

As of August 31, 2024, the Fund had available for tax purposes unused capital loss carryforwards of \$769,141 of short-term capital loss carryforwards, respectively. These capital loss carryforwards, which do not expire, may be utilized in future years to offset net realized capital gains, if any, prior to distributing such gains to shareholders.

NOTE 8. COMMITMENTS AND CONTINGENCIES

The Trust indemnifies its officers and Trustees for certain liabilities that may arise from their performance of their duties to the Trust or the Fund. Additionally, in the normal course of business, the Trust enters into contracts that contain a variety of representations and warranties which provide general indemnifications. The Trust's maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Trust that have not yet occurred.

NOTE 9. SUBSEQUENT EVENTS

Management of the Fund has evaluated the need for disclosures and/or adjustments resulting from subsequent events through the date at which these financial statements were issued. Based upon this evaluation, management has determined there were no items requiring adjustment of the financial statements or additional disclosure.

Report of Independent Registered Public Accounting Firm

Opinion on the Financial Statements

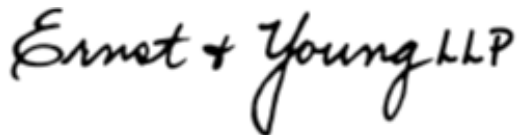

We have audited the accompanying statement of assets and liabilities of Oak Harvest Long/Short Hedged Equity Fund (the “Fund”) (one of the funds constituting Capitol Series Trust (the “Trust”)), including the schedule of investments, as of August 31, 2024, and the related statement of operations, the statement of changes in net assets, and financial highlights for the period from December 18, 2023 (commencement of operations) to August 31, 2024, and the related notes (collectively referred to as the “financial statements”). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Fund (one of the funds constituting Capitol Series Trust) at August 31, 2024, the results of its operations, the changes in its net assets, and its financial highlights for the period from December 18, 2023 (commencement of operations) to August 31, 2024, in conformity with U.S. generally accepted accounting principles.

Basis for Opinion

These financial statements are the responsibility of the Trust’s management. Our responsibility is to express an opinion on the Fund’s financial statements based on our audit. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (“PCAOB”) and are required to be independent with respect to the Trust in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. The Trust is not required to have, nor were we engaged to perform, an audit of Trust’s internal control over financial reporting. As part of our audit, we are required to obtain an understanding of internal control over financial reporting but not for the purpose of expressing an opinion on the effectiveness of the Trust’s internal control over financial reporting. Accordingly, we express no such opinion.

Our audit included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of August 31, 2024, by correspondence with the custodian and broker; when replies were not received from broker, we performed other auditing procedures. Our audit also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audit provides a reasonable basis for our opinion.

The signature of Ernst & Young LLP is written in a cursive, handwritten style in black ink.

We have served as the auditor of one or more Capitol Series Trust investment companies since 2017.
